ABOUT SUNRIDER

Since 1982, Sunrider International has helped people around the world improve their lifestyles and well-being. We are a global business, operating in nearly 50 countries and regions with thousands of Sunrider® Authorized Stores in China and the rest of Asia. We partner with entrepreneurs to offer exceptional wellness products. Quality and safety are our top priorities, thus we research, develop, and self-manufacture over 400 products in our state-of-the-art facilities, spanning two million square feet. As a family-owned business, we take great pride in offering valuable products and helping people make exciting changes to their fortunes, their appearance, and their well-being.

OWNER EXPERTISE FOR RESEARCH & DEVELOPMENT

Owner expertise ensures the safety, quality, and effectiveness of Sunrider® products. Dr. Tei-Fu Chen, the founder of Sunrider, is a world-renowned herbalist with a degree in pharmacy. His wife and co-founder, Dr. Oi-Lin Chen, is a Western-trained medical doctor.

Sunrider's success has always been driven by its research & development, and the next generation of the Chen family is helping to guide the company into the future. Eric Chen, an organic chemist, helps manage all aspects of the Los Angeles Manufacturing Plants. Dr. Reuben Chen, a medical doctor and acupuncturist, is applying his expertise to formulate new products and oversee R & D and business development.

Together with their sons, Drs. Chen lead a team of scientists to research, formulate, and manufacture all Sunrider® products.

1) Left to right: Dr. Tei-Fu Chen, Dr. Oi-Lin Chen, and Eric Chen 2) Reuben Chen, MD, specializes in the field of physical medicine and rehabilitation.

SELF-MANUFACTURING

Since the beginning, self-manufacturing has been an essential part of Sunrider's success. Sunrider owns eight state-of-the-art manufacturing facilities worldwide, which collectively span over two million square feet.

In 2008, we moved our primary research, development, and manufacturing operations to our Los Angeles Manufacturing Plant. It houses the most advanced pharmaceutical-grade machinery available, specially customized to fulfill our exacting standards of product concentration, effectiveness, and safety.

Sunrider® products are based on the **Philosophy of Regeneration®**, the concept of properly nourishing (yin) and cleansing (yang) the five systems of the body with the right combination of nutrients to promote balance and optimal health.

Four Essential Principles of the Philosophy of Regeneration®

Nourish + Cleanse → Balance
Foods, Not Chemicals
Variety of Foods & Nutrients
Expertise in Formulation & Concentration

FORTUNE DELIGHT®

Catechins are naturally occurring polyphenol chemicals found in *Camellia sinensis*, the primary ingredient in Fortune Delight®. These antioxidants have been shown to be effective in absorbing damaging free radicals. Delicious hot or cold, all five flavors of Fortune Delight® help promote the body's natural cleansing processes.

SUNNYDEW®

Savor the Flavor of Sunrider's Zero-Calorie Flavor Booster

"Many companies are now marketing stevia products, but ours is very different. We use a special extraction and concentration process to enhance its benefits. You can also taste the difference—our SunnyDew® and Sunectar® have a unique, delicious flavor with no aftertaste."

Dr. Tei-Fu Chen,
Founder and Chairman of the Board of
Sunrider International

SunnyDew® is an all-natural, potent blend of stevia leaf extract and chrysanthemum flowers that can help maintain normal blood-sugar levels, and is an excellent supplement that can enhance any snack, meal, or drink.* Other brands commonly use a chemical reaction to process stevia, altering its natural structure, but Sunrider's process is different. Our unique purifying and concentration process preserves the natural structure found in its whole food form and creates a much better taste for you and your entire family to enjoy.

SunnyDew® is a great addition to your healthy lifestyle. Just a few drops add enticing flavor to both foods and beverages—and with zero calories! Try it with any of your favorite meals today and taste it for yourself.

Stevia

This Multi-Tasking Herb Lives Up to the Hype

Stevia is a naturally sweet herb indigenous to South America and has been used by its inhabitants and Asians for centuries as a dietary supplement. Containing zero calories, the natural extract from the leaves of the stevia plant makes an excellent flavor enhancer. This herb is also used to help maintain normal blood-sugar levels and is a wonderful supplement to foods and beverages.*

Long before recent stevia buzz, Dr. Chen was hard at work manufacturing and marketing products that contained stevia. In 1982, Sunrider was one of the first companies to introduce stevia to the market with the launch of TruSweet™ (later replaced by Sunectar®), and in 1995 we successfully petitioned the FDA to lift the import alert on the extract of stevia leaves, clearing the way for the use of stevia as a dietary supplement in the United States. Under Dr. Chen, Sunrider has been an early innovator and a pioneer in the use of stevia in our products for over 30 years.

#28031 100 caps/bottle

* These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

Different parts of an herb may serve different purposes. For example, sometimes a plant's leaves are used in teas. Other times, as in the case of Chinese Goldenseal Root, the root is of value. Another example is Ci Wu Jia. We extract and concentrate only from the thin bark of the plant because the inner stalk is less effective. Many companies grind up the bark with the stalk without extraction or concentration, which dilutes the effect.

Unlike many companies, Sunrider manufactures and concentrates its Single Herbs to produce the highest quality, the greatest value, and the most effectiveness. Our factories contain state-of-the-art manufacturing equipment that is continually upgraded to match new technology. Companies that do not manufacture their own products must depend on others and may not be able to guarantee product quality and effectiveness, *but Sunrider can.*

WHY WE NEED SKIN CARE

ACID MANTLE BARRIER & pH-BALANCED PRODUCTS

Skin is the body's protective covering and an important defense against bacteria and environmental pollutants. It's fortified by a shield called the acid mantle, which is a combination of perspiration secreted from the sudoriferous gland and oil secreted from the sebaceous gland. The acid mantle is only slightly acidic (with a pH between 5.5 and 6.5) and acts as a protective barrier that also regulates the skin's oil and water balance.

Many companies use high-alkaline products of pH 8 and up, which strip the skin of this precious, protective acid mantle barrier. This leaves the skin prone to disorders, including wrinkles, dry skin, infections, and blemishes. In contrast, all Kandesn® skin care products are pH-balanced to reinforce and work harmoniously with the acid mantle. This helps keep your skin young, firm, and vibrant—for only when the skin is permitted to function at its best can it look truly beautiful!
